A Top Seal Container with Enhanced
Eye-Catching Performance

EcoLook Packaging System

EcoLook

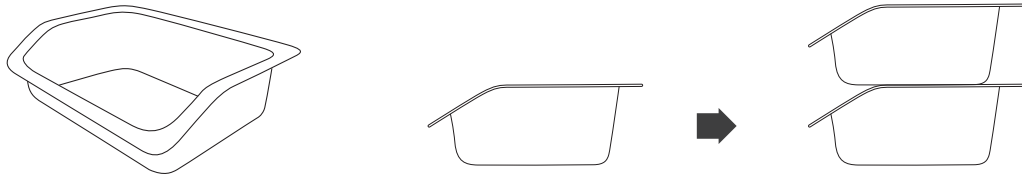

The EcoLook Packaging System Joins Our Lineup!

CHOKOKU
PLAST

● What Is EcoLook?

EcoLook is a top seal container that does an excellent job of catching the eyes of potential customers from diagonally above with its angular appearance (Look). The use of film as the lid also makes EcoLook an environmentally-friendly form of packaging (Eco).

Basic Shape

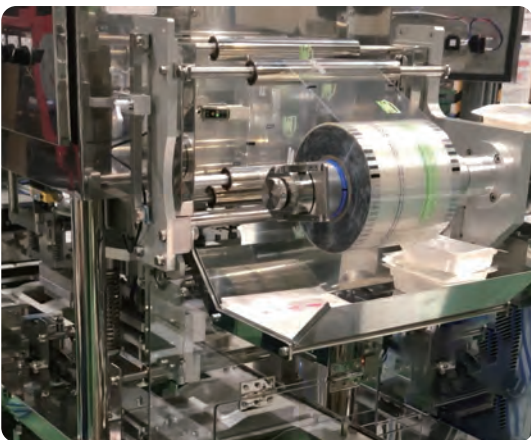

● EcoLook Packaging System

This is an automatic tray-sealing system that reliably seals non-flat container flanges with a top seal to seal in the contents. This system enables the filling and packaging of EcoLook, which is a series of containers with unique shapes.

A gas flushing feature can also be added as an option.

* The EcoLook container body and the top film will be supplied by Chokoku Plast.
